Chandresh Agrawal

The father of fiber optics, Narinder Singh Kapany was far more than your typical multi-hyphenate. Inventor, art collector, sculptor, farmer, entrepreneur, teacher, and a successful businessman, Dr Kapany was what Fortune magazine in its 1999 issue called, 'one of the seven unsung heroes of the 20th century'. An insightful and inspirational life story, this memoir chronicles his 90 remarkable years. Charming, idiosyncratic, and highly engaging, *The Man who Bent Light* serves up enough variety and verve to celebrate the lives of a half-dozen individuals. But there is only one Narinder Singh Kapany, and his life, illuminated in his singular memoir, is a life like no other.

The Scope of Happiness is the autobiography of an outstanding world figure who was the sister, confidante, and lifelong political associate of India's first prime minister, Jawaharlal Nehru and the aunt of Indira Gandhi. Vijaya Lakshmi Pandit participated in the Indian national struggle for freedom from its inception and was imprisoned three times. In this very personal view of the struggle for independence, she gives an evocative picture of the cultured and protected world in which she grew up in Anand Bhavan in Allahabad, conveying even the textures, aromas and sounds of her childhood home. She offers an unprecedented picture of life in India under British rule, with its rigorous restrictions and racial bigotry. A compelling strength of this book is the intimate picture the author draws of many great figures: the searching and affectionate view of her brother, the insight into her niece Indira, a personal record of Mahatma Gandhi that no one else could give--and penetrating and entertaining anecdotes of world figures such as

Krishna Menon, Earl Mountbatten of Burma, Chester Bowles, Dag Hammarskjold, Eleanor Roosevelt, President Tito and Prince Charles. No other living individual could draw the sweeping historical picture that Mrs Pandit has given us in her memoir, making it a book of rare significance that will speak lastingly for generations to come.

India today is a vibrant free-market democracy, a nation well on its way to overcoming decades of widespread poverty. The nation's rise is one of the great international stories of the late twentieth century, and in India Unbound the acclaimed

columnist Gurcharan Das offers a sweeping economic history of India from independence to the new millennium. Das shows how India's policies after 1947 condemned the nation to a hobbled economy until 1991, when the government instituted sweeping reforms that paved the way for extraordinary growth. Das traces these developments and tells the stories of the major players from Nehru through today. As the former CEO of Proctor & Gamble India, Das offers a unique insider's perspective and he deftly interweaves memoir with history, creating a book that is at once vigorously analytical and vividly written. Impassioned, erudite, and eminently readable, *India Unbound* is a must for anyone interested in the global economy and its future.
