AHMED LUCIANO

A Novel University of Hawaii Press
 Through five intense years in the 1970s, Steinn and Solrunn had a happy life together. Then they suddenly parted ways, for reasons that are unclear to both. In the summer of 2007 they meet again on a balcony of an old wooden hotel by a fjord in western Norway. It is a place they both have fond memories from, and their meeting turns out to be fateful. But is it purely coincidental that they meet at that particular spot at that particular time? Over a couple of weeks that summer they write emails to each other, and it becomes clear that they have been living with very different interpretations of their shared

past...

Now a major motion picture starring Cole Sprouse and Haley Lu Richardson!
Goodreads Choice Winner, Best Young Adult Fiction of 2019 In this #1 New York Times bestselling novel that's perfect for fans of John Green's *The Fault in Our Stars*, two teens fall in love with just one minor complication—they can't get within a few feet of each other without risking their lives. Can you love someone you can never touch? Stella Grant likes to be in control—even though her totally out of control lungs have sent her in and out of the hospital most of her life. At this point, what Stella needs to control most is keeping herself away from anyone or anything that might pass along an infection and jeopardize the possibility of a lung transplant. Six feet apart. No exceptions. The only thing Will Newman wants to be in control of is getting out of this hospital. He couldn't care less about his treatments, or a fancy new clinical drug trial. Soon, he'll turn eighteen and then he'll be able to unplug all these machines and actually go see the world, not just its hospitals. Will's exactly what Stella needs to stay away from. If he so much as breathes on Stella she could lose her spot on the transplant list. Either one of them could die. The only way to stay alive is to stay apart. But suddenly six feet doesn't feel like safety. It feels like punishment. What if they could steal back just a little bit of the space their broken lungs have stolen from them? Would five feet apart really be so dangerous if it stops their hearts from breaking too?

Five Feet Apart Rutgers University Press Experience the mosaic of mid-century Manhattan in this exuberant oral history that begins in the post-World War II years when the city came into its own, and ends in the mid-1970s when it nearly went bust. This is the story of a time when great ocean liners were docked in the Hudson River ports, Checker cabs hurtled across a two-way Fifth Avenue, and the Third Avenue el cast long shadows onto the street below. There are recollections of Friday night boxing matches at the old Madison Square Garden, of peddling tunes in the heart of Tin Pan Alley at the Brill Building, of a Harlem that had a nightclub on every corner, and a SoHo that was saved from a wrecker's ball by a "bunch of

mothers." Eleven daily newspapers covered the city beat back then, Automats and five-and-dimes were in each neighborhood, and the New York Philharmonic performed free summer concerts at Lewisohn Stadium on the City College campus. Zabar's was a small dairy store; Balducci's was an open-air fruit and vegetable stand. New York was becoming the center of haute cuisine and haute couture; the New York School of abstract expressionists had taken the lead from Paris in avant-garde art. This transformative time when New York City became the capital of the world is captured here in myriad memories that create an often humorous, sometimes poignant, occasionally bitter—but always loving—testament to the magical mystique of Manhattan. Includes interviews with Jimmy Breslin, Bill Gallo, Monte Irvin, Robert Merrill, Herman Badillo, Elaine Kaufman, Jerry Della Femina, Pauline Trigère, Sirio Maccioni, Jane Jacobs, Saul Zabar, Margaret Whiting, and many more.

Based on interviews with Poles, Jews, and Ukrainians who lived in the small eastern Polish town of Brzezany before, during, and after World War II, together with extensive research into the historical record and his own childhood memories, historian Shimon Redlich reconstructs the changing relationships among Brzezany's three ethnic groups. The book details the history of Brzezany from the pre-war decades when members of the three communities remember living relatively amicably "together and apart" when Brzezany was part of independent Poland, through the tensions of Soviet rule from 1939 to 1941 and the trauma of the Nazi occupation from 1941 to 1944, to the recapture of the town by the Red Army in 1945. Each chronological chapter is introduced by Redlich's recollections, continues with an examination of the events as documented in local sources, and concludes with the observations of his interviewees. Historical and contemporary photographs of Brzezany and its inhabitants add immediacy to this fascinating excursion into history brought to life by those who lived through it, showing how events are remembered and interpreted often in very different ways.

Why would a child refuse to talk about anything but wasp wings-or the color of subway train doors? What does it mean when a nine-year-old asks questions about death hundreds of times a day? And how can parents build a close relationship with a little girl who hates to be touched? In this compassionate book, leading autism authority Dr. Peter Szatmari shows that children with autism spectrum disorders act the way they do because they think in vastly different ways than other people. Dr. Szatmari shares the compelling stories of children he has treated who hear everyday conversation like a foreign language or experience hugs like the clamp of a vise. Understanding this unusual inner world-and appreciating the unique strengths that thinking differently can bestow-will help parents relate to their children more meaningfully, and make the "outer world" a less scary place.

A RECORD OF IMPORTANT EVENTS

Simon and Schuster

From the bestselling author of *Lawrence in Arabia*, a piercing account of how the contemporary Arab world came to be riven by catastrophe since the 2003 United States invasion of Iraq. In 2011, a series of anti-government uprisings shook the Middle East and North Africa in what would become known as the Arab Spring. Few could predict that these convulsions, initially hailed in the West as a triumph of democracy, would give way to brutal civil war, the terrors of the Islamic State, and a global refugee crisis. But, as New York Times bestselling author Scott Anderson shows, the seeds of catastrophe had been sown long before. In this gripping account, Anderson examines the myriad complex causes of the region's profound unraveling, tracing the ideological conflicts of the present to their origins in the United States invasion of Iraq in 2003 and beyond. From this investigation emerges a rare view into a land in upheaval through the eyes of six individuals—the matriarch of a dissident Egyptian family; a Libyan Air Force cadet with divided loyalties; a Kurdish physician from a prominent warrior clan; a Syrian university student caught in civil war; an Iraqi activist for women's rights; and an Iraqi day laborer-turned-ISIS fighter. A probing and insightful work of reportage, *Fractured Lands* offers a penetrating portrait of the contemporary Arab world and brings the

stunning realities of an unprecedented geopolitical tragedy into crystalline focus. *A to Z of Knaresborough History*

How neoliberalism and the politics of respectability are transforming African American manhood While single-sex public schools face much criticism, many Black communities see in them a great promise: that they can remedy a crisis for their young men. *Black Boys Apart* reveals triumphs, hope, and heartbreak at two all-male schools, a public high school and a charter high school, drawing on Freedom Blume Oeur's ethnographic work. We meet young men who felt their schools empowered and emasculated them, parents who were frustrated with co-ed schools, teachers who helped pave the road to college, and administrators who saw in Black male academies the advantages of privatizing education. While the two schools have distinctive histories and ultimately charted different paths, they were both shaped by the convergence of neoliberal ideologies and a politics of Black respectability. As Blume Oeur reveals, all-boys education is less a school reform initiative and instead joins a legacy of efforts to reform Black manhood during periods of stark racial inequality. Black male academies join long-standing attempts to achieve racial uplift in Black communities, but in ways that elevate exceptional young men and aggravate divisions within those communities. *Black Boys Apart* shows all-boys schools to be an odd mix of democratic empowerment and market imperatives, racial segregation and intentional sex separation, strict

discipline and loving care. Challenging narratives that endorse these schools for nurturing individual resilience in young Black men, this perceptive and penetrating ethnography argues for a holistic approach in which Black communities and their allies promote a collective resilience.

Bestselling author Christopher Golden brings his epic, innovative trilogy, the *Veil*, to an astonishing conclusion as the mythic realm of heroes and monsters becomes the site of humanity's last—and greatest—showdown. In the world of the legendary, every myth and folktale is real. That is what Oliver Bascombe learned on the other side of the *Veil*, where humanity's legends have hidden away for centuries. But even legends have legends, and Oliver has learned of a prophecy that many believe he and his sister, Collette, have come to the Two Kingdoms to fulfill. Before they can discover the truth, the Bascombe siblings must help to stop an apocalyptic war that threatens to destroy the Two Kingdoms, unravel a conspiracy, and prevent a powerful sorcerer from severing the world of humans from the realm of the legendary forever. But first Oliver will have to plot an escape from an impregnable palace dungeon where he and his allies have been imprisoned . . . for regicide. As old heroes and friends ally themselves for one last battle, even older enemies stand arrayed against them. Is humanity ready to face its legends head-on? For Oliver Bascombe, the price may be dearer than even he could ever imagine. From the Trade Paperback edition.

Big Happiness is extremely important to our community. Mark Panek's biography of Percy Kipapa speaks to the consequences of the destruction of Hawai'i's rural neighborhoods, unchecked development, the ice epidemic, the failures of government, sumo, intricate family and neighbor relationships, and more. What is most impressive is Panek's ability to weave all of these complex topics together in a seamless narrative that connects all the dots. Part mystery, part investigative journalism, part poignant Island portrait, this work contains an emotional element that binds the reader to the subjects in a dignified yet touching way, showing compassion and even affection for people while revealing their flaws and shortcomings. This book will resonate with an Island audience and with anyone interested in Hawai'i. —Victoria Kneubuhl, Hawai'i writer and playwright "This book tells of personal triumphs and failures, and also the triumphs and failures of families, communities, organizations, agencies, governments, and churches dealing with the multiple consequences of 'progress' in contemporary Hawai'i. There have been heroes and villains at all levels—frequently, the same individuals and agencies are both at the same time. The story of Percy Kipapa is especially poignant because professional sumo gave him a unique opportunity to transcend Hawai'i's culture of colonialism, racism, poverty, and drug addiction, which in the end all brought him down anyway. Mark Panek has done a masterful job of weaving these strands together." —Reverend Bob Nakata, former Hawai'i state senator "Spanning the history of Waikane and the brutality of Japan's national sport, Big Happiness is a remarkably ambitious piece that links one man's murder to the ice epidemic, land development, and political corruption in Hawai'i. Mark Panek's meticulously researched, skillfully written, heartbreaking story, filled with voices that ring true, is an indictment of an entire system that crushed a gentle giant. While other Hawai'i writers dwell in 'take me back to da kine' nostalgia, Panek tells it like it really is." —Chris McKinney, author of *The Tattoo* and *Mililani Mauka*

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his

children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.
