Dialogue as a Trans-disciplinary Concept Northwestern University Press

Buber scholars have long agreed that in this study of the political-communal image of kingship rich, imaginative historical scholarship combines with brilliant insight and style to make this work an outstanding contribution to Old Testament scholarship.

I and Thou is a summons calling us to dialogue today. Like the call Buber himself received, the book invites us to encounter the Other, our counterparts both human and eternal. Buber's spiritual awakening, his engagement with his people and his times, his wide reading, and his grief are contexts that open up this call to us to join with him in the fullness of a life of dialogue. If we follow Buber into his study, into the struggle of his inner life, into his achievement of dialogical existence--he opens up the wonders of *I and Thou* to us as his testament and his call to us to turn to dialogue, and he shows us the path to the fulfillment of that life. This book ushers us to that place.

I AND THOU is one of the most important books of Western Theology. In it, Martin Buber, heavily influenced by the writings of Nietzsche, unites the proto-Existentialist currents of modern

German thought with the Judeo-Christian tradition, powerfully updating faith for modern times. Since its first appearance in Germany in 1923, this slender volume has become one of the epoch-making works of our time. This work is the centerpiece of Buber's philosophy. It lays out a view of the world in which human beings can enter into relationships using their innermost and whole beings to form true partnerships. This is the original English translation, and it was prepared in the author's presence.

The World of Relation Wiley-Blackwell

Martin Buber's philosophy of dialogue sought to express the human experience through the ways in which we encounter and interact with others. His "I—Thou" theory of dialogue and "I—It" theory of monologue expressed ways of understanding one's place in the world in relation to others, objects, and especially God. Buber died in 1965, leaving behind a vast library of writings and ardent students and scholars eager to engage with his ideas. One of the most prominent scholars was Maurice Friedman. Friedman and Buber shared a professional as well as a personal relationship, based on translating, interpreting, and intellectual curiosity. Beginning in the summer of 1950 and ending with Buber's death, this volume takes the reader through Buber's three visits to America, his wife's death, the author's stay in Jerusalem, and the articulation of Buber's culminating philosophy of the interhuman. In tracing this chronology, Friedman draws extensively on his personal collection of letters exchanged with Buber. Intimate and meditative, this book provides an exploration of a deeply intellectual friendship shared between two extraordinary thinkers.

Critique of Religion and Philosophy Greenwood Publishing Group
Edited by Nahum N. Glatzer With a new Foreword by Rodger Kamenetz "The question I put before you, as well as before myself, is the question of the meaning of Judaism for the Jews. Why do we call ourselves Jews? I want to speak to you not of an abstraction but of your own life . . . its authenticity and essence." With these words, Martin Buber takes us on a journey into the heart of Judaism—its spirit, vision, and relevance to modern life.
Hasidism University of Chicago Press

A new edition of the bestselling classic – published with a special introduction to mark its 10th anniversary This pioneering account sets out to understand the structure of the human brain – the place where mind meets matter. Until recently, the left hemisphere of our brain has been seen as the 'rational' side, the superior partner to the right. But is this distinction true? Drawing on a vast body of experimental research, Iain McGilchrist argues while our left brain makes for a wonderful servant, it is a very poor master. As he shows, it is the right side which is the more reliable and insightful. Without it, our world would be mechanistic – stripped of depth, colour and value.

Martin Buber's Ontology Hassell Street Press

Theologian, philosopher, and political radical, Martin Buber (1878–1965) was actively committed to a fundamental economic and political reconstruction of society as well as the pursuit of international peace. In his voluminous writings on Arab-Jewish relations in Palestine, Buber united his religious and philosophical teachings with his politics, which he felt were essential to a life of public dialogue and service to God. Collected in *A Land of Two Peoples* are the private and open letters, addresses, and essays in which Buber advocated binationalism as a solution to the conflict in the Middle East. A committed Zionist, Buber steadfastly articulated the moral necessity for reconciliation and accommodation between the Arabs and Jews. From the Balfour Declaration of November 1917 to his death in 1965, he campaigned passionately for a "one state solution. With the Middle East embroiled in religious and ethnic chaos, *A Land of Two Peoples* remains as relevant today as it was when it was first

published more than twenty years ago. This timely reprint, which includes a new preface by Paul Mendes-Flohr, offers context and depth to current affairs and will be welcomed by those interested in Middle Eastern studies and political theory.

This volume of essays takes as its point of departure Martin Buber's principle of dialogue, which he applied as a comprehensive hermeneutic method for the study of various cultural phenomena. The volume critically evaluates the methodological purchase to be gained by the introduction of Buber's conception of dialogue in political theory, psychology and psychiatry, and religious studies.

An inspirational introduction to Buber's I and Thou, showing the dynamic possibilities of spirituality between us. Examples from Ross's own life—as a hospital chaplain, social worker, congregational rabbi, father, and husband—illustrate Buber's notoriously difficult-to-understand ideas about how we encounter God and each other.

Traces the life of the renowned Jewish religious philosopher, discussing his youth, his education in turn-of-the-century Vienna, his Zionism, and the impact of world politics on his life and thought

Ecstatic Confessions Simon and Schuster

Famous Zionist philosopher Martin Buber introduces the Western audience in his modern masterpiece. This book is a result of forty years of study, and Buber interprets the ideas and motives that underlie the great Jewish religious movement of Hasidism and its creator, Baal-Shem. Buber's interpretation of Hasidic stories and teachings influenced the revival of its practices in a new generation to turn to Hasidic teachings, and his collection Hasidism continues to affect Jewish scholarship worldwide. With his lasting work in both Hasidism and Zionism, Buber imagined a renewal in the Jewish faith, and his philosophies and idealisms enrich the pages of this book, making it a must-read for any Jewish or religious scholar.

The Lost Mirror - Education in the Hebrew Tradition SUNY Press

The I-Thou controversy between Heidegger and Buber is a significant but often overlooked issue in philosophy and theology. In one of the first books to truly address the subject, Haim Gordon explores the arguments of both Martin Heidegger and Martin Buber regarding the I-Thou relationship and its significance for human existence. After examining the fundamental ontology of Heidegger, set beside the ontological insights of Buber concerning this relationship, Gordon concludes that each of these important twentieth-century philosophers was guilty of ignoring the contributions made by the other to the study of ontology and being.

Originally published in 1959, *The Faith of a Heretic* is the most personal statement of the beliefs of Nietzsche biographer and translator Walter Kaufmann. A first-rate philosopher in his own right, Kaufmann here provides the fullest account of his views on religion. Although he considered himself a heretic, he was not immune to the wellsprings and impulses from which religion originates, declaring it among the most vital and radical expressions of the human mind. Beginning with an autobiographical prologue that traces his evolution from religious believer to "heretic," the book touches on theology, organized religion, morality, suffering, and death—all examined from the perspective of a "quest for honesty." Kaufmann also subjects philosophy's faith in truth, reason, and absolute morality to the same heretical treatment. The resulting exploration of the faiths of a nonbeliever in a secular age is as fresh and challenging as when it was first published. In a new foreword, Stanley Corngold vividly describes the intellectual and biographical milieu of Kaufmann's provocative book.

"Buber came to play a role in the development of so-called third force psychology. . . . In the exchange between Buber and [Carl] Rogers, one can see how far they both were from the world of Freud, which presumes an omniscient analyst dealing with curiously foolish neurotics. Freud's aloofness might have been self-deception, but he never advocated anything like the mutual give-and-take that Buber and Rogers had in mind. . . . Buber's mind was in another world from that of early psychoanalysis, and the passage of time has shown how relevant his thinking can be

to how we approach the healing professions."—from the Introduction

The Master and His Emissary Yale University Press

Scripture and Translation is the first English translation of an essential work on translation theory and the modern literary study of the Bible. First published in Germany in 1936 as *Die Schrift und ihre Verdeutschung*, the book grew out of Buber and Rosenzweig's work on an innovative and still controversial German translation of the Hebrew Bible. Rather than provide an idiomatic rendering, the Buber-Rosenzweig translation recasts the German language on the model of biblical Hebrew by attempting to reproduce the spoken quality, structure, and ordering of poetic devices found in the original texts. These essays articulate the rationale for the translation, both in theoretical terms and through close readings of specific texts. This edition also includes the first publication in any language of Martin Buber's essay "The How and Why of Our Biblical Translation."
