 Darrell D. Hannah engages the debate over 'angelomorphic Christology'. He shows that more than one form of angel or angelomorphic Christology was current in early Christianity and that Michael traditions in particular provided a conceptual framework in which Christ's heavenly significance was understood.

In spite of its enormous historical significance and increased contemporary interest, this is the first general introduction to the spirituality of the Anabaptist tradition. Anabaptist spirituality has been described as "both Catholic and Protestant," a sixteenth-century ascetic lay reform movement inspired both by currents of pre-Reformation devotion to Christ and the Reformation call to return to Scripture. Because of their insistence on adult baptism Anabaptists -- often illiterate artisans and peasants with no formal theological education -- met widespread persecution. Arnold Snyder's sympathetic study draws on court records to give an intimate glimpse into their beliefs, practices, and spirituality. As well as inspiring such groups as the Mennonites, the Amish and various groups of Brethren and Baptists, Anabaptist ideas have profoundly influenced individuals and movements throughout the churches into modern times.  For most of church history, hospitality was central to Christian identity. Yet our generation knows little about this rich, life-giving practice.

Never-Ending Prayer Westminster John Knox Press

Is Christian 'tradition' to be maintained as the absolute body of truth? Can it be used selectively depending on the preferences of individual believers? What can 'religious truth' possibly mean in our age of opinions and overwhelming cultural diversity? These are unsettling questions for Christians, their effect aggravated by our daily encounter with non-western cultures and non-Christian religions, and by the increasing presentation of secularism and atheism as the 'normal' way of life. In *Never-Ending Prayer*, Bert

Hoedemaker outlines the continuing importance of tradition, while showing that in facing these challenges our understanding of tradition needs a 'reset'. Drawing on his own experiences of world Christianity, he reconstructs the Christian tradition in such a way that it no longer defines and defends itself as a specific body of concepts and practices over against 'the world' but as a living community originating in and remaining in interaction with humanity's permanent struggles. It is presented as a system of religious imagination in which prayer is the driving force and reconciliation is seen as the destination of humankind.

 The Early Church read the Scriptures with the conviction that (in the words of St. Augustine), "The New Testament lies hidden in the Old and the Old Testament is unveiled in the New." Drawing inspiration from how both the Apostles and Christ himself read the Old Covenant as referring to the New (cf. Luke 24:27, 1 Peter 3:20-21, 1 Corinthians 10:1-5), the Church found the Old Testament to be rich with figures, or "types," that foreshadowed both the mysteries of the life of Christ and the mysteries, or sacraments, of the New Covenant. And yet, in modern times the study of types (or "typology") has been largely abandoned by scholars due to the dangers of subjectivity and exaggeration. How can typology be studied in a way that is objective and that avoids the excesses present in the past? Fr. Devin Roza seeks to offer a solution to these difficulties by asking the question, "According to the Scriptures and the living Tradition of the Church, what are the types and symbols of the sacraments and what do they mean?" As authorized representatives of the living Tradition, the Liturgy (including the readings from the Church Fathers) and the Catechism, together with the Scriptures, offer both the scholar and pastor the opportunity to study typology as the Catholic Church herself understands and prays it today, in those texts the Church considers her own. Fulfilled in Christ thus offers a comprehensive and readable summary of references to types and symbols of the sacraments in the Scriptures and the living Tradition of the Church, as represented by the Liturgy and the Catechism. The result is a highly objective, scholarly, and at the same time pastoral study of how the Church understands and lives the types and symbols of the sacraments today.

[From the Apostolic Age to Chalcedon \(451\)](#) Wipf and Stock Publishers

In the two thousand years that have elapsed since the time of Christ, Christians have been as much divided by their faith as

united, as much at odds as in communion. And the contents of Christian confession have developed with astonishing energy. How can believers claim a faith and practice that has been passed down through the ages while recognizing the real historical contingencies that have shaped both those doctrines and those divisions? In this carefully argued essay, David Bentley Hart critiques the concept of Tradition that has become dominant in Christian thought as fundamentally incoherent. He puts forth a convincing new explanation of Christian tradition, one that is obedient to the nature of Christianity not only as a "revealed" creed embodied in historical events but as the "apocalyptic" revelation of a history that is largely identical with the eternal truth it supposedly discloses. Hart shows that Christian tradition is sustained not simply by its preservation of the past, but more essentially by its anticipation of the future. He offers a compelling portrayal of a living tradition held together by apocalyptic expectation--the promised transformation of all things in God.

No period of history was more formative for the development of Christianity than the patristic age, when church leaders, monks, and laity established the standard features of Christianity as we know it today. Combining historical and theological analysis, Christopher Beeley presents a detailed and far-reaching account of how key theologians and church councils understood the most central element of their faith, the identity and significance of Jesus Christ. Focusing particularly on the question of how Christ can be both human and divine and reassessing both officially orthodox and heretical figures, Beeley traces how an authoritative theological tradition was constructed. His book holds major implications for contemporary theology, church history, and

ecumenical discussions, and it is bound to revolutionize the way in which patristic tradition is understood.

The Anabaptist Tradition Yale University Press

Beginning in New Testament times, there is a time-honored tradition of forming new Christians in the essentials of faith: catechesis. This volume aims to uncover the riches of this tradition for all who teach and preach the faith today, and well as animate it: St Augustine wrote that joy should be the prime characteristic of those who teach the faith. Six outstanding theologians and historians open up the tradition of catechesis for today's church: • Alister McGrath explores the role of the creeds in catechesis; • Susan Gillingham, Professor of the Hebrew Bible, looks at the Psalms in Christian formation; • Jennifer Strawbridge, Associate Professor of New Testament, reflects on catechesis in the early church; • Carole Harrison, Lady Margaret Professor of Divinity, offers lessons from the patristic period; • Sarah Foot, Regius Professor of Ecclesiastical History, draws lessons from the Anglo Saxon missions to Europe; • Simon Jones, Chaplain of Merton College and member of the Liturgical Commission, links formation and liturgy; • Steven Croft shows how this great tradition can be revitalised today.

"All throughout the modern period, there has been a steady campaign for people to "think for themselves" without tradition's distorting restraint. As a result, many Christians now blindly sip a watered-down faith, marketed as "no creed but the Bible." But, as Leonard Allen shows, we are always traditioning-even if one doesn't believe in tradition. And in this time of theological uncertainty and confusion, that process calls for new intentionality and seriousness. In the Great Stream will show you what the Great Tradition is, and how it can be our ally providing weight, ballast, and bearings to all those who seek to live out-and to hand on-the faith. Discover the vital recoveries that we need to make that draw on classic Christian orthodoxy. These older ways are the key to renewing our hearts and our churches"--

For two millennia Christians have thought about what human impairment is and how faith communities and society should respond to people with perceived impairments. But never has one volume collected the most significant Christian writings on disability. This book fills that gap. Brian Brock and John Swinton's *Disability in the Christian Tradition* brings together for the first time key writings by thinkers from all periods of Christian history - including Augustine, Aquinas, Julian of Norwich, Luther, Calvin, Hegel, Kierkegaard, Bonhoeffer, Barth, Hauerwas, and more. Fourteen contemporary experts in theology and disability studies guide readers through each era or group of thinkers, offering clear commentary and highlighting important themes.
