[Four-year Summary](#)

"Thelu" is an endeavor to present to you in English SP (SP - Slow Pace), the eccentric, idiotic, hilarious characters that were part of my stint as a "Thelu" at an IIT and those notable and memorable events (be it funny, emotional, intense, whatever) associated with them. When I say 'event', it is not about someone jumping from the tenth floor and still surviving or the hero getting caught in the midst of a brutal riots. The events depicted here are the simple ones you would have witnessed and enjoyed in your own (college) life. So, is this book for you? If you have studied in a residential campus like IIT or any other college in any corner of the world, you can very well relate to this book. If you have not, still you can very well relate. If you have studied in a college, school or any such place, this book is for you. If you consider education only conditions brain, this book is for you as well. Basically, this book is for everyone who can read and understand English SP.
