The Prize The King of Oil Homecomings usually involve burgers, fries and apple pies but that's not on the menu for Cassandra and Silver. They're launched into assassination attempts, bar brawls, and relationship drama just in the first 24 hours. Can they protect everyone they love from all comers before it explodes in their face? Find out in VECTOR, Book Three of the Weaver Series. *King's Queen* Brandt Tobler
 The oil industry provides the lifeblood of modern civilization, and bestselling books have been written about the industry and even individual companies in it, like

ExxonMobil. But the modern oil industry is an amazingly shady meeting ground of fixers, gangsters, dictators, competing governments, and multinational corporations, and until now, no book has set out to tell the story of this largely hidden world. The global fleet of some 11,000 tankers—that's tripled during the past decade—moves approximately 2 billion metric tons of oil annually. And every stage of the route, from discovery to consumption, is tainted by corruption and violence, even if little of that is visible to the public. Based on trips to New York, Washington, Houston, London, Paris, Geneva, Phnom Penh, Dakar, Lagos, Baku, and Moscow, among other far-flung locals, *The Secret World of Oil* includes up-close portraits of a shadowy Baku-based trader; a high-flying London fixer; and an oil dictator's playboy son who has to choose one of his eleven luxury vehicles when he heads out to party in Los Angeles. Supported by funding from the prestigious Open Society, this is both an entertaining global travelogue and a major work of investigative reporting.

A new epic fantasy series begins. *Song of Dragons* tells a story of blood, steel, and dragonfire. **BOOK ONE: BLOOD OF REQUIEM** Long ago stood the kingdom of Requiem, a land of men who could grow wings and scales, breathe fire, and take flight as dragons. Requiem ruled the sky. But *Dies Irae*, a tyrant leading an army of griffins, hunted Requiem's people, burned their forests, and shattered their temples. Requiem fell. This ancient land now lies in ruin, its halls crumbled, its cries silenced, its skeletons littering the burned earth. In the wilderness, a scattering of survivors lives in hiding. The griffins still hunt them, and every day promises death. Will Requiem's last children perish in exile... or once more become dragons and fly to war?

Billionaire oil trader Marc Rich for the first time talks at length about his private life (including his expensive divorce from wife Denise); his invention of the spot oil market which made his fortune and changed the world economy; his lucrative and unpublicized dealings with Ayatollah Khomeini's Iran, Fidel Castro's Cuba, war-ravaged Angola, and apartheid South Africa; his quiet cooperation with the Israeli and U.S. governments (even after he was indicted for tax fraud by Rudy Guiliani) and near-comical attempts by U.S. officials to kidnap him illegally. This sure-to-make-headlines book is the first no-holds-barred biography of Rich, who was famously pardoned by Bill Clinton,

and resurfaced in the news during the confirmation hearings of Attorney General Eric Holder. *The King of Oil* sheds stunning new light on one of the most controversial international businessmen of all time, charting Rich's rise from the Holocaust, which he fled as a young boy, to become the wealthiest and most powerful oil and commodities trader of the century. From his earliest trading days to the present, Marc Rich's story is astonishing and compelling.

Please note: This is a companion version & not the original book. **Sample Book Insights: #1** The spot market for oil was one of the most lucrative ideas of the twentieth century. It was created by Marc Rich, a commodities trader, who single-handedly broke the cartel of Big Oil in the 1970s. Rich became one of the world's richest and most powerful commodities traders. **#2** I wanted to get to know Marc Rich better. I wanted to ask him why he thought it was right to do business with Ayatollah Khomeini's Iran, with Fidel Castro's Cuba, or with apartheid South Africa. I wanted to hear him speak about the charges of tax evasion. **#3** I spoke with many people who had worked with Rich in the oil and commodities trading business, as well as his daughters and friends. I read countless documents concerning Rich's case and his companies. *King's Crown* CreateSpace

Imagine what it would be like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero, Michelangelo. And imagine what it would be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation—and a very wealthy man. Soon, images of his toilet bowls are on more t-shirts, mugs, and calendars than Edvard Munch's *The Scream*. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and reacquaint himself with the "old masters." In Venice, Mark falls in

love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he climbs up on a roof to find out who painted her favorite fresco. He falls off the roof and wakes up in 15th century Venice where he meets an innkeeper named Francesca, who looks exactly like Alexandra. And it gets curiously and curiously from there. During his stay—which is sometimes zany and sometimes frightening—he meets his hero, Michelangelo, who teaches him the true meaning of art.

The oil and gas industry is old and is notoriously resistant to change. Author Jay Young wants to revolutionize it. In his book, *The Upside of Oil and Gas Investing*, Jay Young presents a new investment model for the oil and gas industry that represents a total change in the way much of the smaller, independent companies in the industry operate. He dissects the industry in detail, showing you the pitfalls investors can find themselves falling into when they sign onto a deal structured according to the old model. Aiming to give investors the opportunity to participate in the extraordinary investment of oil and gas with a transparent understanding of both the downside risks and the upside potential, Jay Young outlines a new process that allows for efficiency, productivity, and, as a result, building wealth quickly.

Twilight in the Desert reveals a Saudi oil and production industry that could soon approach a serious, irreversible decline. In this exhaustively researched book, veteran oil industry analyst Matthew Simmons draws on his three-plus decades of insider experience and more than 200 independently produced reports about Saudi petroleum resources and production operations. He uncovers a story about

Saudi Arabia's troubled oil industry, not to mention its political and societal instability, which differs sharply from the globally accepted Saudi version. It's a story that is provocative and disturbing, based on undeniable facts, but until now never told in its entirety. Twilight in the Desert answers all readers' questions about Saudi oil and production industries with keen examination instead of unsubstantiated posturing, and takes its place as one of the most important books of this still-young century.

Joseph Tiritilli, aka Joey Jet, exemplifies the success possible in America today by using ambition, a willingness to take risk, and a strong work ethic to make the most of available opportunities. Joey Jet came up the hard way in Totowa, New Jersey; fifteen miles from Manhattan, the heart of New York City. His grandfather a blacksmith in a Pennsylvania coal mine; his father an honest, hard working truck driver; and his mother a professional switchboard operator, Joey left school at sixteen. He became a three time small business owner/operator, soloed at Lincoln Park, New Jersey N07, and became a private pilot by age twenty-five. Moving to Deerfield Beach, Florida, Joey Jet continued learning to fly at Pompano Beach Airpark's Pompano Air Center, earning his Commercial Airplane license and becoming a Certified Flight Instructor under the tutelage of R. Dan Baker. Joey learned to fly Learjets when he was hired by Harvey N. Hop at Fort Lauderdale's Hop-A-Jet, Inc. Joey Jet has been a Learjet Captain flying the rich and famous throughout the United States, Canada, Mexico and the Caribbean for more than twenty-five years. Fasten your seatbelt and enjoy this compilation of stories from some of Joey Jet's most memorable flights. Stories include James Patterson, Roger King, Puff Daddy Imposter, James Lovell, Billy Joel, Enrique, Paris Hilton, Suze Orman, John Schnatter - Papa John's Pizza, Jackie Mason, Denzel Washington, Paulina Porizkova, Diana Ross, Shakira, Henryk de Kwiatkowski, Lee Greenwood, Elie Wiesel, Preston Henn, Patrick Park, Robert Redford, Don Whittington, Dear Abby, General H. The King of Oil Harlequin Books

The first comprehensive biography of Marion King Hubbert, the "father of peak oil." In 1956, geologist and Shell Oil researcher Marion King Hubbert delivered a speech that has shaped world energy debates ever since. Addressing the American Petroleum Institute, Hubbert dropped a bombshell on his audience: U.S. oil production would peak by 1970 and decline steadily thereafter. World production would follow the same fate, reaching its peak soon after the turn of the millennium. In battles stretching over decades, Hubbert defended his forecasts against opponents from both the oil industry and government. Hubbert was proved largely correct during the energy crises of the 1970s and hailed as a "prophet" and an "oracle." Even amid our twenty-first-century fracking boom, Hubbert's underlying logic holds true—while remaining a source of debate and controversy. A rich biography of the man behind peak oil, *The Oracle of Oil* follows Hubbert from his early days as a University of Chicago undergraduate to his first, ill-fated forays into politics in the midcentury Technocracy movement, and charts his rise as a top geologist in the oil industry and energy expert within the U.S. government. In a deeply researched narrative that mines Hubbert's papers and correspondence for the first time, award-winning journalist Mason Inman rescues the story of a man who shocked the scientific community with his eccentric brilliance. *The Oracle of Oil* also skillfully situates Hubbert in his era: a time of great intellectual ferment and discovery, tinged by dark undercurrents of intellectual witch hunts. Hubbert emerges as an unapologetic iconoclast who championed sustainability through his lifelong quest to wean the United States—and the wider world—off fossil fuels, as well as by questioning the pursuit of never-ending growth. In its portrait of a man whose prescient ideas still resonate today, *The Oracle of Oil* looks to the past to find a guiding philosophy for our future.

A Necklace of Souls CreateSpace

The modern world is built on commodities - from the oil that fuels our cars to the metals that power our smartphones. We rarely stop to consider where they have

come from. But we should. In *The World for Sale*, two leading journalists lift the lid on one of the least scrutinised corners of the world economy: the workings of the billionaire commodity traders who buy, hoard and sell the earth's resources. It is the story of how a handful of swashbuckling businessmen became indispensable cogs in global markets: enabling an enormous expansion in international trade, and connecting resource-rich countries - no matter how corrupt or war-torn - with the world's financial centres. And it is the story of how some traders acquired untold political power, right under the noses of western regulators and politicians - helping Saddam Hussein to sell his oil, fuelling the Libyan rebel army during the Arab Spring, and funnelling cash to Vladimir Putin's Kremlin in spite of western sanctions. The result is an eye-opening tour through the wildest frontiers of the global economy, as well as a revelatory guide to how capitalism really works.

Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically,

running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover. *The Oil Kings Moonclipse*

The Earth is in ruins. Cities and nations destroyed. Mankind is extinct. Brant and Arsha are synthetics, machines made in the image of people. They dream of bringing humans back into the world and have the technology to succeed, but the obstacles in their way are mounting. Not only are their own conflicting ideals creating a rift between them, but now the sinister Marauders are closing in as they seek revenge on Brant. Out in the wasteland, strange lights and mysterious objects in the sky herald the arrival of new factions that seek to control the region. Even in the once quiet streets of their own city, malevolent forces are beginning to unfurl that threaten the sanctity of everything they hold dear, jeopardising the future that is within their grasp.
