 The SALRM 2011 provides a rich source of information on a range of language-related subjects. A prominent issue remains the changing of street and place names, including the Pretoria/Tshwane and Louis Trichardt/Makhado sagas. Language in education remains a thorny issue; as medium of instruction at school and tertiary level, and the proposal that passing an African language should be a requirement in order to obtain a tertiary degree in South Africa. In terms of language legislation, the draft version of the National Language Act was proposed. The language of record in courts also received attention in the media.

The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

"e;Saam met Berigte uit die Dorsland het die historikus se dogter, Margaretha Schaefer, ook Meer oor P.J. van der Merwe saamgestel. Dit vorm as't ware 'n tweeluik. Baie interessant is onder meer koerantberigte oor Van der Merwe se openbare optredes in 1940 terwyl die Tweede Wereldoorlog gewoed het. Hy was

toe nog nie 30 jaar oud nie en het pas teruggekeer van Nederland waar hy sy doktrale studies afgehandel het ... In die bundel is verskeie resensies opgeneem wat Van der Merwe oor leidende historici se werk geskryf het. Dit sluit ook in evaluasies van ander historici van sy werk en van die dosente in die Geskiedenis-departement aan die U.S., waarvan hy van 1955 tot 1977 die effektiewe hoof was ... 'n Opstel deur F.A. van Jaarsveld, waarin hy Van der Merwe en sy werk ontleed, is een van die mees uitstaande bydraes van hierdie historikus. Dit is egter die essay getitel Trek, deur die Australiese historikus W.K. Hancock, wat in die tydskrif, The Economic History Review, gepubliseer is, wat beter as alle ander pogings slaag om die unieke bydrae van Van der Merwe tot die Suid-Afrikaanse historiografie te beskryf en te ontleed."e; - Hemann Giliomee

Children are often entertained by things that are disgusting and absurd. They will

regularly seek this kind of material, so it is nice to have books that expose them to this stuff in a harmless fashion. The humorous value is endless, and kids inadvertently learn some science while reading. Ultimately, these publications use shocking images to elicit laughter and education.
