The Mediation Process Instaread

Here, from Bill Clinton, is a call to action. Giving is an inspiring look at how each of us can change the world. First, it reveals the extraordinary and innovative efforts now being made by companies and organizations—and by individuals—to solve problems and save lives both "down the street and around the world." Then it urges us to seek out what each of us, "regardless of income, available time, age, and skills," can do to help, to give people a chance to live out their dreams. Bill Clinton shares his own experiences and those of other givers, representing a global flood tide of nongovernmental, nonprofit activity. These remarkable stories demonstrate that gifts of time, skills, things, and ideas are as important and effective as contributions of money. From Bill and Melinda Gates to a six-year-old California girl named McKenzie Steiner, who organized and supervised drives to clean up the beach in her community, Clinton introduces us to both well-known and unknown heroes of giving. Among them: Dr. Paul Farmer, who grew up living in the family bus in a trailer park, vowed to devote his life to giving high-quality medical care to the poor and has built innovative public health-care clinics first in Haiti and then in Rwanda; a New York couple, in Africa for a wedding, who visited several schools in Zimbabwe and were appalled by the absence of textbooks and school supplies. They founded their own organization to gather and ship materials to thirty-five schools. After three years, the percentage of seventh-graders who pass reading tests increased from 5 percent to 60 percent; Oseola McCarty, who after seventy-five years of eking out a living by washing and ironing, gave \$150,000 to the University of Southern Mississippi to endow a scholarship fund for African-American students; Andre Agassi, who has created a college preparatory academy in the Las Vegas neighborhood with the city's highest percentage of at-risk kids. "Tennis was a stepping-stone for me," says Agassi. "Changing a child's life is what I always wanted to do"; Heifer International, which gave twelve goats to a Ugandan village. Within a year, Beatrice Biira's mother had earned enough money selling goat's milk to pay Beatrice's school fees and eventually to send all her children to school—and, as required, to pass on a baby goat to another family, thus multiplying the impact of the gift. Clinton writes about men and women who traded in their

corporate careers, and the fulfillment they now experience through giving. He writes about energy-efficient practices, about progressive companies going green, about promoting fair wages and decent working conditions around the world. He shows us how one of the most important ways of giving can be an effort to change, improve, or protect a government policy. He outlines what we as individuals can do, the steps we can take, how much we should consider giving, and why our giving is so important. Bill Clinton's own actions in his post-presidential years have had an enormous impact on the lives of millions. Through his foundation and his work in the aftermath of the Asian tsunami and Hurricane Katrina, he has become an international spokesperson and model for the power of giving. "We all have the capacity to do great things," President Clinton says. "My hope is that the people and stories in this book will lift spirits, touch hearts, and demonstrate that citizen activism and service can be a powerful agent of change in the world."

Expert Help for the Special Challenges of Managing Other Leaders Whether you were born a leader or have had leadership thrust upon you, you're in for a whole new set of challenges when managing other leaders. Think of the qualities that have brought you to a leadership role: your vision, confidence, and charisma, or perhaps your experience, unique skills, expertise, or network of powerful allies. Now remind yourself that other leaders share some or all of these qualities with you. The leaders you are called upon to lead may be other executives, highly educated experts, investors, board members, government officials, doctors, lawyers, or other professionals. The potential contributions of these elites to any organization are vital, but the likelihood of friction is also high if you don't manage relationships carefully. In any case, they are people with significant resources -- and strong opinions. How do you leverage the assets of the talented and powerful while making sure that egos remain unbruised? *Leading Leaders* breaks the challenge down into the Seven Daily Tasks of Leadership, and shows you how to carry out each task when you have to manage other leaders. The seven tasks and the special challenges they entail in leading leaders are: 1. Direction How do you negotiate a vision for the organization that other leaders will buy into? 2. Integration How do you make stars a team? 3. Mediation How do you resolve conflicts over turf and power among other leaders so the organization can move forward? 4. Education How do you educate people who think they are already educated? 5. Motivation How do you move other leaders who already seem "to have everything" to do the right thing for the organization? 6. Representation How do you lead your organization's outside constituents while still leading leaders inside? 7. Trust Creation How do you gain and keep other leaders' trust, the vital capital that your own leadership depends on? Drawing on the author's own leadership experience as well as his research in the corporate, political, academic, and professional worlds, *Leading Leaders* answers these questions with a clear set of effective rules for all managers to follow in successfully leading other leaders.

Negotiating Agreement Without Giving In Wolters Kluwer

William Ury, coauthor of the international bestseller *Getting to Yes*, returns with another groundbreaking book, this time asking: how can we expect to get to yes with others if we haven't first gotten to yes with ourselves? Renowned negotiation expert William Ury has taught tens of thousands of people from all walks of life—managers, lawyers, factory workers, coal miners, schoolteachers, diplomats, and government officials—how to become better negotiators. Over the years, Ury has discovered that the greatest obstacle to successful agreements and satisfying relationships is not the other side, as difficult as they can be. The biggest obstacle is actually our own selves—our natural tendency to react in ways that do not serve our true interests. But this obstacle can also become our biggest opportunity, Ury argues. If we learn to understand and influence ourselves first, we lay the groundwork for understanding and influencing others. In this prequel to *Getting to Yes*, Ury offers a seven-step method to help you reach agreement with yourself first, dramatically improving your ability to negotiate with others. Practical and effective, *Getting to Yes with Yourself* helps readers reach good agreements with others, develop healthy relationships, make their businesses more productive, and live far more satisfying lives.
