Inspirational ideas for throwing the perfect party from L.A. interior designer and party planner Joe Nye. Clients and friends turn to Joe Nye for his advice on gracious living, in particular how to create a smashing get-together. *Flair* covers three aspects of party planning that can make an event shine—flowers, paper components, and the table setting. In each section, Nye gives inspirational ideas and tips on how to make the most of these decorative elements for any type of occasion. Beautiful photographs of several diverse settings—a breezy beach cocktail gathering, a casual red, white, and blue patriotic sit-down, a pastel-hued ladies' luncheon, and an elegant black-and-white supper—show how to achieve winning possibilities that can be pulled off with ease. Nye always throws in fun, unexpected elements, such as serving soup in antique finger bowls from the flea market and personal accents that make for a truly

memorable event. The book covers topics such as when to use paper napkins, how to make flowers last longer, and host/hostess etiquette. A shopping resource completes this charming guide for those who relish the joy of entertaining.

*Second Edition* Simon and Schuster

Now available as an ebook for the first time ever in America, the bestselling coming-of-age classic novel by John Irving—the 40th anniversary edition with a new introduction by the author. “He is more than popular. He is a Populist, determined to keep alive the Dickensian tradition that revels in colorful set pieces...and teaches moral lessons.”—The New York Times The opening sentence of John Irving’s breakout novel *The World According to Garp* signals the start of sexual violence, which becomes increasingly political. “Garp’s mother, Jenny Fields, was arrested in Boston in 1942 for wounding a man in a movie theater.” Jenny is an unmarried nurse; she becomes a single mom and a feminist leader, beloved but polarizing. Her son, Garp, is less beloved, but no less polarizing. From the tragicomic tone of its first sentence to its mordantly funny last line—“we are all terminal cases”—*The World According to Garp* maintains a breakneck pace. The subject of sexual hatred—of intolerance of sexual minorities and differences—runs the gamut of “lunacy and sorrow.” Winner of the National Book Award, *Garp* is a comedy with forebodings of doom. In more than thirty languages, in more than forty countries—with more than ten million copies in print—*Garp* is the precursor of John Irving’s later protest novels.

Staircases, which today are equally the responsibility of joiners and carpenters, have had a varied history over the last thirty years. Until 1945 nearly all staircases, even those in large residential blocks, were made of wood. Because of the amount of relatively small dwellings that were built during the war, new regulations frequently stipulated nonflammable materials for almost all stairs. Government aid available to finance such projects have, in addition, stimulated the rebuilding and thus the design of more what is more, fewer and fewer craftsmen were trained for this generously proportioned dwellings, including, of course, rewarding and varied branch of woodworking craftsmanship. Staircases. This is a regrettable development, since good stair builders must combine the design capabilities

and three-dimensional approach. The style of living has changed. Techniques of Staircase Construction therefore provides welcome reversal to previous styles has also passed.
