RUSH PAOLA

Official Register of the United States Rowman & Littlefield

This study was originally planned to follow certain regional papers with a similar account of the family Scrophulariaceae (figwort or foxglove family) for the Middle Atlantic & N. Central States. But it soon seemed preferable to include the southern Appalachians & the whole Atlantic Coastal Plain. The flora of the northern states has been profoundly modified by the glacial epoch, & any understanding of the composition & distribution of our northern flora should also consider the adjoining southern territory where vegetation was little or not affected & from which the north was again populated. So, it was decided to include

again the South Atlantic & the West Gulf States. The plan of this study is both more thorough & more comprehensive than earlier efforts. Illus.

Year Book of the American Pharmaceutical Association United States Pharmacopeia

Includes University catalogues, President's report, Financial report, registers, announcement material, etc.

The Baptist Home Mission Monthly Texas A & M University Press
Vol. for 1958 includes also the Minutes of the final General Assembly of the United Presbyterian Church of North America and the minutes of the final General Assembly of the Presbyterian Church in the U.S.A.

The National Corporation Reporter Academy of Natural Sciences
In v.1-8 the final number consists of the Commencement annual.

Hearings Before the Subcommittee on Health... 91-2, September 2, 4, 1970 UM Libraries

In the late summer of 1864, Confederate General Sterling Price led a last ditch attempt to liberate Missouri from Union occupation and brutal guerrilla warfare. Price's invading army was like few others seen during the Civil War. It was an army of cavalry that lacked men, horses, weapons, and discipline. Its success depended entirely upon a native uprising of pro-Confederate Missourians. When that uprising never occurred, Price's rag-tag army marched through the state seeking revenge, supplies and conscripts. It was a march that took too long and ultimately allowed Union forces to converge on Price and badly defeat him in a series of battles that ran from Kansas City to the Arkansas border. Three months and 1,400 miles after it had started, the longest sustained cavalry operation of the war had ended in disaster. The Last Hurrah is the story of Price's invasion from its politically charged planning to its starving retreat. The Last Hurrah is also the story of what happened after the shooting

stopped. Even as hundreds of Missourians followed Price out of the state and tried desperately to join his army, elements of the Union army visited retribution upon Confederate sympathizers while still others showed little regard for the lives of the prisoners they had captured. Many more would have to suffer and die long after Sterling Price had fled Missouri.

The Last Hurrah

Texas can boast of many diverse photographic collections--at least 350 in all. Held in public and private institutions, corporations, and governmental agencies, major and minor collections account for more than 100,000 photographs worldwide as well as national and regional interest. This guide to all the major and most of the minor photographic collections in Texas lists each by city; library, museum, or archive; and collection within that institution. For the major collections a statement of purpose gives the institution's nature and the types of material it collects, including nonphotographic materials. Other important information provided by the guide includes: addresses, hours, assistance available, permission fee requirements, and finding aids; statements of scope and listings of the locales represented; listings of the subjects and people pictured in the collections; a bibliography of publications that reproduce the collection's photographs; tables showing the number from each time period of each type of photograph, negative, or album; photographer's names and studios and other corporate identities responsible for the photographs; descriptions of the record groups included in the collections, including reference numbers, titles, subjects, responsible agencies, physical descriptions, and span dates; separate indexes to institutions, subjects, persons,

locations, and photographers. This important reference, the only published record of photographic collections in Texas, will be a welcome tool for scholars, research librarians, collectors, and museum curators nationwide.--Cover.

Hearings

Beginning 1977, the April issue consists of a directory called: Programs and services for the deaf in the United States.
